Alokasi Izin/Kontrak

AI/K

Alokasi Izin/Kontrak

Kebijakan tentang alokasi izin/kontrak untuk mengekstraksi sumber daya alam dapat menjadi dasar pengelolaan yang baik atau justru menjadi jalan untuk penyalahgunaan.

Tantangan Umum Tata Kelola

- Penyuapan (*Bribery*), *politically-exposed persons*
- Menarik investor yang tepat
- Rendahnya kapasitas negosiasi → syarat-syarat yang kurang menguntungkan negara → imbal hasil yang rendah
- Kurangnya pengawasan atas syarat dalam izin/kontrak

Findings

We set out in the tables below the status of compliance for each of the contracts reviewed.

Table 1 - Summary of compliance

| | |
|---------------------|-----|
| Compliant | C |
| Partially compliant | PC |
| Non-compliant | NC |
| Limitation of scope | LoS |

- A contract was judged as compliant where we did not note several instances of non-compliance;
- A contract was judged as partially compliant when the instances of non-compliance encountered were not material to the extent that the whole process was deficient;
- A contract was judged as non-compliant with applicable regulations where we noted major departures from relevant legislation; and
- A limitation of scope was emitted when we did not receive the documentation pertaining to the award process.

Apa yang disyaratkan dalam EITI :

Aktifitas Eksplorasi (§ 3.3)

Nilai dan volume produksi (§ 3.5(a) & § 3.4(e))

Nilai dan volume ekspor (§ 3.5(b))

Kontribusi ekonomi (§ 3.4(a)-(c))

Data Produksi

Data Produksi

Nilai dan volume produksi merupakan faktor penting untuk mengetahui seberapa besar yang diambil dari ekstraksi migas dan tambang. Data produksi juga terkait dengan isu pembangunan berkelanjutan dan perencanaan ekonomi. Minimnya informasi produksi dapat berdampak pada *underpayment*.

Tantangan umum tata kelola

- Minimnya kapasitas monitoring
- *Underpayment*
- Lemahnya *forecasting* pendapatan negara
